Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title has been replaced by "LCD with light shielding on same insulator as pixel and extending beyond sealant inner surface"

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the prior art taught or suggested a device with the claimed structure having the black matrix on the surface of the same insulator as the pixel electrode, (as per applicants comments in paper #28), and in which the layer extends beyond the inner boundary of the sealant. The reference which show the opaque layer on the same layer as the pixel electrode (such as Yamazaki et al 6587169) do not show the layer extending beyond the inside wall of the seal. Such a limitation is clearly supported by the specification, although not shown by the figures, as an advantage explicitly listed in the specification is that the shielding frame is not limited by the sealing reference (see below), so the layer can extend below the seal and outside. Therefore applicant was in position at the time of filing.

"The TFT substrate and the counter substrate are adhered to each other with a sealing resin 16 which is provided in the vicinity of the light shielding frame section 14. A UV curable sealing resin is often used as the sealing resin 16. In this case, UV light is radiated from the counter substrate side toward the TFT substrate side, or the TFTs are damaged and the characteristics thereof are deteriorated by the UV light in the step of adhering the substrates. Furthermore, in the case of using the UV curable sealing resin, the size of the light shielding frame section 14 is limited in order that the sealing resin 16 can be irradiated with UV light. However, smaller size of the light shielding frame section 14 necessitates higher alignment accuracy in assembling the light shielding frame section 14 with the module, which renders this step of adhering the substrates complicated..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth A Parker whose telephone number is 703-305-6202. The examiner can normally be reached on 9:30-6:00.
